

# ABDUL NASIR JAMAL

Kumasi, Ghana · techwithjamal@gmail.com · 0505318199 · <https://github.com/jamalabdulnasir220>

## EDUCATION

**Kwame Nkrumah University of Science and Technology**  
BSC Computer Engineering

Kumasi, Ghana  
Aug 2018 - Sep 2022

## EXPERIENCE

**Pkay Software Consultancy**  
*Software Engineer*

Accra, Ghana  
Oct 2024 - Present

- Built responsive, accessible user interfaces using React and TypeScript, implementing component-driven design for maintainability and reuse.
- Developed and maintained state management and async data flows with Redux Toolkit Query (RTK Query), reducing boilerplate and improving API integration stability.
- Owned frontend CI/CD pipelines and deployments on platforms such as Render, ensuring repeatable releases and quick rollback paths.
- Reduced initial page load time by 75% through code-splitting, lazy loading of routes/components, and image optimization, improving core web vitals.

**Driver and Vehicle Licensing Authority**  
*IT Technician*

Kumasi, Ghana  
Dec 2022 - Oct 2023

- Provided technical support to staff across DVLA offices, troubleshooting desktops, laptops, printers, scanners and networked peripherals.
- Performed routine maintenance and fault diagnosis on smart-card readers/biometric devices used for driver licensing and vehicle registration systems.
- Enforced IT security best practices: user account management, password resets, and reporting of suspected incidents to senior IT staff.

## SKILLS

Programming Languages and Tools: Javascript, Typscript, Python, CSS / TailwindCSS, HTML5  
Tools and Libraries: React, NodeJS, ExpressJS, MongoDB, Redux Toolkit, Clerk, Auth0

## PROJECTS

**Ghanabite** *MongoDB, Express, React, NodeJS, Tanstack Query*

<https://mern-food-ordering-app-frontend-91yj.onrender.com/>

Built and shipped Ghanabite, a full-stack MERN food-ordering platform (React, TypeScript, Node/Express, MongoDB) implementing restaurant onboarding, admin approval, role-based ordering flows, authentication, performance optimizations, and production deployment.

**MovieStore Afrik** *React, MongoDB, Express, NodeJS, Inngest, Nodemailer*

<https://moviestore-afrik.vercel.app/>

Built and shipped MovieStore Afrik end-to-end: a responsive ticketing platform that lets event organizers create shows and audiences browse, select seats, and purchase tickets. Implemented the complete frontend and backend, payment integration, booking logic, and deployed a production demo on Vercel.

**BirthNon** *React, TailwindCSS, Redux toolkit*

<https://www.birthnon.com/>

A scalable multi-vendor marketplace with seller onboarding, product management, order processing, and buyer checkout flows.

## ACHIEVEMENTS

**React Developer**

Recognized as a qualified React Developer

Namaste Dev  
Aug 2024

**NodeJS Developer**

Recongized as a NodeJS Developer

Namaste Dev  
May 2025

**Qualified Teacher**

Taught mathematics at IPS School, designing standards-aligned lessons and assessments while differentiating instruction for diverse learners. Collaborated with colleagues and parents to improve student outcomes and ran targeted intervention sessions for exam preparation.

IPS School  
June 2018
