

ABDUL NASIR JAMAL

Accra, Ghana · techwithjamal@gmail.com · 0505318199 · <https://jamalnasir.vercel.app>

EDUCATION

Kwame Nkrumah University of Science and Technology
BSC Computer Engineering

Kumasi, Ghana
Aug 2018 - Oct 2022

WORK EXPERIENCE

Pkay Software Consultancy
Software Engineer

Accra, Ghana
Jan 2024 - Feb 2026

- Designed, developed, and maintained scalable web applications using modern frontend and backend technologies.
- Built responsive user interfaces using React, TypeScript, and Tailwind CSS to improve user experience across devices.
- Developed RESTful APIs and backend services using Node.js, Express.js, and MongoDB.
- Collaborated with cross-functional teams to gather requirements and deliver software solutions that met client needs.
- Integrated third-party APIs and external services to extend application functionality.
- Participated in code reviews, debugging, testing, and performance optimization to ensure high-quality software delivery.

Driver and Vehicle Licensing Authority
IT Technician

Wenchi, Ghana
Jan 2023 - Oct 2023

- Assisted customers with vehicle registration, licensing, and driver's license application processes.
- Provided front-line customer support by responding to inquiries and guiding clients through DVLA procedures and requirements.
- Entered, updated, and maintained driver and vehicle records within the DVLA information management system.
- Assisted staff with basic technical support and administrative computing tasks.

SKILLS

Programming Languages:	Javascript, Typescript, C#, SQL, HTML5, CSS3
Frameworks & Libraries:	React.js, Redux Toolkit, Node.js, Express.js, ASP.NET Core, Entity Framework Core, Tailwind
Databases:	MongoDB, PostgreSQL, SQLite
Cloud & DevOps:	AWS (EC2, S3), Docker, Nginx
Tools & Technologies:	Git, Github, Postman, Swagger/OpenAPI, REST APIs, JWT Authentication, Auth0, Clerk

PROJECTS

Ghana Bite - Food Delivery Platform *React, Node.js, Express.js, MongoDB, Auth0*

<https://ghana-bite.online>

Developed a food delivery platform that allows users to browse restaurants, place orders, and track deliveries. Built responsive user interfaces and backend APIs to manage products, orders, and customer information. Implemented secure user authentication and database management features. Optimized application performance and usability across desktop and mobile devices.

ShowQueue - Movie Booking Platform *React, Redux Toolkit, TMDB API, TailwindCSS, Node.js, Clerk*

<https://moviestore-afrik.vercel.app/>

Built a movie booking platform that allows users to discover movies, browse showtimes, and reserve cinema tickets. Integrated external movie APIs to provide real-time movie information, ratings, and show details. Developed a responsive and user-friendly interface for seamless navigation across devices. Implemented state management using Redux Toolkit to improve application performance and user experience.

DevConnect - Developer Networking Platform *React, Node.js, Express.js, MongoDB, JWT, AWS, Nginx*

<http://13.51.237.44>

Developed a full-stack developer networking platform that enables users to discover, connect, and interact with other software professionals. Implemented secure authentication and authorization using JWT-based authentication. Designed and integrated RESTful APIs for user management, connection requests, and profile interactions. Deployed the application on AWS EC2 and configured Nginx as a reverse proxy for production use.
